

Run 632875: $\tau_0 = 10.36$ MPa, $k_{pmax} 2.5e-13$, $a-b = +0.003$ — observed slip from the seismicity catalog, 20 m west of the well

A. Amplitude — solid observed, dashed simulated

B. Front — linear zoom on the western foot

C. Shape — each profile over its own peak
